-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9, 15, 16, 19, 28-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Blazey'931.

See column 1, lines 10-20, column 2, lines 36-64, column 3, lines 5-22, lines 30-62, column 4, lines 22-24, column 5, lines 4-33.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 10-14, 17-18, 20-27 rejected under 35 U.S.C. 103(a) as being unpatentable over Blazey'931 in view of Hasenour'535.

The applied Blazey'931 teaches the claimed invention substantially as claimed. See the rejections above. The Blazey'931 does not specifically teach the limitations of claims 10-14, 17-18, 20-27 that relate to atomizing stream, temperature and pressure control of the stream, particle size, spray gun. However, Hasenour'535 teaches that it is well known in the art to use a spray gun to coat three dimensional wooden objects. See column 6, lines 19-65. It would have been obvious to one having ordinary skill in the art at the time of the invention to use the specific spray gun known in the art in Blazey'931 to coat wooden object as suggested by Hasenour'535, since such would increase efficiency and properties of the coatings. Also, it would have been obvious to control particle sizes, temperature and pressure of the spray gun since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. Furthermore, atomizing stream is intimate part of spraying process using spray gun.

The amendments and remarks filed by applicants in the last response have been fully considered. The applicants have mainly argued that the prior art does not teach application of the coating to three dimensional objects. The arguments have been found not to be persuasive.

Art Unit: 1773

The examiner submits that the he believes that the applied prior art teaches the claimed invention as in the above rejections. These rejections are maintained.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
